Contador Mx Recommended If you've been thinking about starting a business on your own for a long time and don't want to face the tedious paperwork, I recommend you start creating a simplified stock company. On March 14, 2016 was published in the DOF the decree that allows the constitution of a Simplified Share Company (S.A.S.), this is a new legal regime that allows one or more natural persons to set up a company through of electronic means with all legal effects and where the intervention of the Public Fedatary is optional (you save the Notary). Main characteristics of the SAS: Establish an administrative constitution mechanism with all legal effects. Optionally allow the intervention of the public fedatario. A new corporate regime constituted by one or more shareholders (natural persons). No minimum capital. Proforma statutes will be established with a simple administration and operation mechanism. The use of electronic means in the decision-making of shareholders will be promoted. Benefits: You can protect your personal wealth by separating it from the one you contribute to the company. Free. Online and without time restrictions. You can perform the process of constitution from any electrical device. The operation of the company will be simpler. The only way to carry out this process is through the Electronic System of Simplified Share Companies, which is in charge of the Secretariat of Economy, whose operation and operation will be governed by the General Rules for Public Share Companies. the Operation and Operation of the Electronic System of Simplified Stock Companies published in the Official Journal of the Federation on September 14, 2016.
